

Motorsport Pedigree

Engine

Lanson Polymers is a supplier of high-performance sealing related items that are used in challenging Motorsport engine environments. We have a long pedigree with these seals, for over 10 years they have been successfully running in F1, Formula E, World Endurance, World Rally and Hypercars.

Lanson Polymers are on hand and ready to assist with any new project requirements or refinement of existing areas.

Lanson Polymers

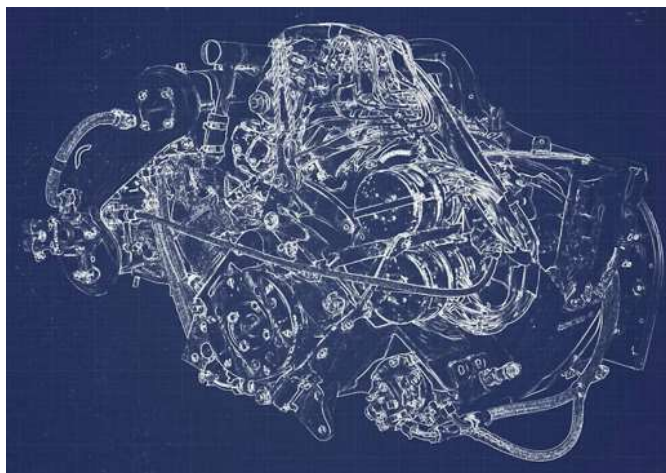

Your blueprint for engine seals, gaskets & grommets

Crank Shaft Seals

Valve Stem Seals

FFKM Gaskets

D-Seals

Spring Energised Seals

Moulded AV Rubber Grommets

X-Ring Seals

FFKM O-Rings

High Performance without compromise

All applications for seals, bearings & components are different – in many instances engineers must compromise by using a standard “off the shelf” item when they would prefer a bespoke solution.

Lanson Polymer’s competitive lead times allied with our vast experience in the design and supply of high-performance seals, bearings & components into the motorsport arena will allow you to specify the optimum solution.
